

GUEST LECTURE BY DR.MAHANTESHA S
ASSOCIATE PROFESSOR
DEPT. OF PERIODONTOLOGY
FACULTY OF DENTAL SCIENCES

AT CDE program conducted by IDA, Davangere branch, Karnataka

Dr. Mahantesh delivered Guest lecture on “Darkness un to light-Lasers in dentistry” and conducted Hands on Course on Lasers on 14th of October 2019, In College of Dental Sciences, which was organized by Indian Dental Association, Davangere branch, Karnataka.

The program focused mainly on Lasers and its impact on the ever changing horizons of treatment options in dentistry.

It’s twofold benefits, to both the dentist and the patient were briefly elaborated upon. The clear advantages it provides, such as a bloodless field, little to no post-operative pain and discomfort along with quick operative time was also mentioned.

A total of hundred delegates registered for the program and limited to thirty for the hands on course.

The hands on course consisted of various real time applications of lasers on soft tissues of a goat jaw.
